2009 Homecoming
October 9, 2009
“Whatever It Is”

Calendar of Events

Monday, October 5th
Color Wars Day – Show your class pride by dressing in your class' color!

Freshmen: Orange
Sophomores: Pink
Juniors: Blue
Seniors: Red

Activity: Iron Man Volleyball

Wednesday, October 7th
Nerd Day – Dress up as Steve Urkel or your favorite nerd!

Activity: Iron Man Volleyball

Tuesday, October 6th
Cowboys & Indians Day – School appropriate western and Native American apparel.

Activity: Iron Man Volleyball

Thursday, October 8th
Decade Day – Unite with your class and dress in your designated decade!

Freshmen: 50’s
Sophomores: 60’s
Juniors: 70’s
Seniors: 80’s

Activity: Tour de MHS

Friday, October 9th
Purple Pride Day – Support your Meade Buffaloes by dressing in your best purple outfit!

Activity: Pep Rally

Homecoming Coronation will take place before the 7:00pm kickoff
Communication to Meade USD #226 Patrons

Trying to provide timely and accurate information is always important to any school district and Meade USD #226 is no exception. As I visited with our building principals and athletic directors before school started, the emphasis on keeping our community informed was reiterated by stating that one of our biggest jobs is:

COMMUNICATION, COMMUNICATION, COMMUNICATION

Several things in our district have been put in place to help let students, parents, and the community know about upcoming events and changes. These include:

• Updating the monthly calendar that comes out in “The Open Range” newsletter each month
• Publishing “The Open Range” before the first of each month with news, pictures, and upcoming events
• Posting Meade Fall Sport’s Schedules around the community
• Providing information to the local newspapers about sports and other activities
• Sending or mailing home important information to parents
• Providing “loads” of information on www.usd226.org including:
  • Placing an updated 12-month calendar on the website back in August that is printable
  • Posting weekly bulletins from both the MES and the MHS on the district website (these bulletins include day by day information about activities, times, etc. that are scheduled for each building)
  • Placing feature articles and/or information on the district website about school events
  • Publishing the breakfast and lunch menus that are printable
  • Providing the Meade Fall Sports at-a-glance schedule that is printable
  • Providing a link for parents and students to access grades (must be signed up through each building)
  • Links to teachers’ websites throughout the district
  • Links for other important information (KSHSAA, A+ Learning Center, Employment, Whitehead Scholarship Applications, and MUCH MUCH more)

If you haven’t checked out the district website this year, I think you may be surprised by all the valuable information it provides. Before calling the school to find out about an event or the time of an event, try looking at the website first. My goal is to make information readily available to the public about activities throughout the entire district.

As just a footnote, I want to thank the patrons of Meade for the tremendous community support given to activities within our district. It almost never fails, whether Meade is at home or away, we usually have the largest crowd. Our fine arts programs are also well attended by the community. For the 18 years I have been here, we have always had to have our K-6 Christmas Program at the high school auditorium because of the tremendous attendance. Your support for our students in all areas does not go unnoticed. THANK YOU!!!
What are other schools admission charges for athletic events?
The following information will assist you for SPIAA contests:

Ashland – HS $2.00 Adult/$1.00 Student, MS - $2.00 Adult/$1.00 Student  
Bucklin – HS $3.00 Adult/$2.00 Student, MS - $2.00 Adult/$1.00 Student  
Fowler – HS Free, MS Free  
Greensburg – HS $3.00 Adult/$2.00 Student, MS - $2.00 Adult/$1.00 Student  
Haviland – HS $3.00 Adult/$2.00 Student, MS - $2.00 Adult/$1.00 Student  
Jetmore – HS $3.00 Adult/$2.00 Student, MS - $2.00 Adult/$1.00 Student  
Minneola – HS Free, MS Free  
Pawnee Heights – HS $3.00 Adult/$2.00 Student, MS Free  
South Central – HS $3.00 Adult/$2.00 Student, MS - $2.00 Adult/$1.00 Student  
South Gray – HS $3.00 Adult, $2.00 Student  
Spearnville – HS $3.00 Adult/$2.00 Student, MS - $2.00 Adult/$1.00 Student

Non-SPIAA school and tournaments will charge differently. District passes will NOT be honored at tournaments or at non-league events.
Meade charges $4.00 for adults and $3.00 for students for all High School athletic events and the Middle School charges $3.00 for adults and $2.00 for students for athletic events. If you are interested, a reduced ticket purchase is still available when purchased through the High School (12 events for the price of 10).

Explain the cell phone policy.
First offense for any electronic device – the device will be confiscated and kept in the office. The parent is notified and must pick up the object for an explanation of the policy if there is a second or any further violations.
After the initial offense the student will serve three (3) days in the In-School-Suspensions room. Parents will be notified. This policy will last through the entire 4 years of attendance at the school. If the first violation is in the freshman year and the second is not until the junior year, the second violation will receive the three (3) day In-School-Suspension, if we can remember that far back.

Please explain what the school is doing about “credit recovery”.
First, we consider “credit recovery” to be courses offered to high school students through the Meade Community Learning Center (MCLC). Those students, who have failed a course required for a diploma, can take an on-line version of the course through the MCLC. The courses are built to meet the individual need of the student and are self-directed. Self-directed courses have little or no instruction other than that which appears on screen. Students enroll in the credit recovery class during the school day and are held accountable for their own progress.
If a student is making no progress, parents will be notified and a consequence for lack of effort will be withdrawal.
In rare cases, students may enroll in a course without first attempting that course taught by one of the high school staff members in the regular school day.

Why are the pop machines turned off during the school day?
It is something about obesity prevention. The federal government has regulations about the consumption of sugar by students and we must comply. Certain drinks are available, but not in the classrooms. If a student has a special need, a note from a physician, will circumvent the procedures.

When will wrestling start?
Sport seasons are defined and regulated by the Kansas State High School Activities Association (KSHSAA). Fall sports (Cross Country, Football, Girls’ Tennis and Volleyball) began on August 17th, Winter sports (Boys’ and Girls’ Basketball and Wrestling) begin on November 16th, and; Spring sports (Boys’ Tennis, Golf and Boys’ and Girls’ Track) begin on March 1st.

How do I get to use the school’s facilities?
A request must be made by the organization to the appropriate building administrator. A “Use of Facilities” form must be completed and returned and then presented to the Superintendent for final approval. A fee may be charged for the use based on a formula prepared and approved by the Board of Education.
Once approval, or denial, has been determined, the request will be returned and the event placed on the calendar, if appropriate. It is important that organizations interested in facilities usage get their requests in early. It is also important to note that school functions and organizations affiliated with the school get priority.

Question Submission for this article must be no later than the 2nd Wednesday of the month or the questions will be answered in the next month’s edition.

5th Grade listens to President Obama
The 5th grade students were given the opportunity to watch President Obama’s Back-To-School Message to America’s students on Tuesday, September 8, during Social Studies. A couple of the students asked if they could write a paper on the speech and this is what they wrote:

President Obama’s Speech by JC Deason
President Obama said we could be a mayor or doctor or teacher or even a member of the Navy. The future of America depends on you. He needs every single student’s talents. He said that you make your future, not other people. President Obama said to pay attention in school. He said to make sure we are washing our hands, so we don’t get the flu. If you get in trouble, you are not a trouble maker. He asked us what we will do in the future.

President Obama’s Speech by Chrissy LeClear
President Obama’s speech began with the Wayfield senior class president who talked about what their school was like. Wayfield High School is in Arlington, Virginia. President Obama said that even if we all had the best schools in the world, it wouldn’t matter if we didn’t act respectfully. We could be great, but you wouldn’t know it until you went to school. We can’t drop out of school and drop into a great job. We need school to build new companies or be something great. Even though some of us may have challenges we can still do our homework and go to school. When he was a kid, he was poor but he still went to school and to college and then on to law school and was successful. Maybe if times are bad and you think you can’t go to school, you are wrong because you can. He said that even if you have a mental problem, you can still be great. If we set a goal, no matter what it is, we need to follow it. We need to stay healthy and safe so that other people can. The truth is that you won’t always get a one hundred on a test. You can’t let your mistakes pull you back, you have to keep moving forward. Not everybody is born good at everything. The point is don’t let yourself down or anybody else.

PTO Family Picture Day is coming in November! Watch The Open Range for further details! For questions, please contact Michelle Ross at 620-873-5258.

School dismissed at 1:30pm
Friday, October 16th

NO SCHOOL
Friday, October 23rd
Another month in the books – time is definitely not standing still at this point in the year! Fall sports are in full swing and we are starting preparation for the state assessments.

**New Junior High Schedule**

Starting Friday, September 18th, we began a new, Friday-only schedule for the Junior High. Mr. Leiker’s Social Studies class did a government-in-action project in which the students proposed new ideas to the administration. They wrote, rewrote, and wrote a third time a plan in which they would be similar to the High School schedule on Fridays by including a 10-minute break into their class schedule. They also included provisions that noted that students who are not eligible for participation in extra-curricular activities will be required to report to the teacher they are ineligible for during that time. All students that have a discipline referral during that week will have to report to the office during the break.

The students also wanted this to be a celebration for following school procedure and guidelines by giving them the freedom to use cell phones, iPods, and other electronic devices during the 10-minute break only. Following the break, electronic devices are shut off and returned to the students’ lockers. This is a great opportunity for our Junior High students to experience not only the freedoms, but also some of the responsibilities they will have when they transition to high school. This is also a way to reward our students for their hard work each and every day. I want to commend the students for their role in the process of showing how government works.

**Book Mark Contest**

The 4th, 5th, and 6th grade Art classes are participating in a contest in coordination with the Meade County Conservation District. This year’s theme has to do with “Soil”. Mrs. Larsen’s Art classes have begun the process of developing their ideas. We may have the next winner in our midst.

**Fire Prevention Week**

The Meade County Fire Department will be doing a fire prevention week on October 5-7. Students in Kindergarten through 6th grade will participate in a classroom activity and active participation demonstration on the football field.

---

**MHS HVAC Options Reviewed by Meade School Board**

The Meade School Board continues to look at options to deal with the aging HVAC (Heating, Ventilating, and Air Conditioning) system at the Meade High School. Most of the equipment in the building is original as the building was built in 1969. This past spring the Meade Board of Education replaced the 40 year older chiller used to air condition the building. This year the boilers that heat the building will be 41 years old. While this original boiler has “lugged” on for over four decades, it is showing signs of age and the boiler’s remaining life span is very limited.

An engineer provided several options for the Meade Board of Education to review at their September meeting. These options include: 1) Replacing the boiler; 2) Upgrading the current 2-pipe HVAC system; and 3) Upgrading the building to a 4-pipe HVAC system. Option 1 would allow the district to replace the current single boiler with two energy efficient boilers along with new pumps and equipment to make it functional. In almost all new school construction and remodeling two boilers are installed instead of one for efficiency reasons and to provide a back up boiler in case one goes down. Option 2 would include upgrading the boiler, but would also include adding new energy efficient HVAC units throughout the entire building. In addition this option would provide for computerized controls to every unit. Option 3 would contain the provisions in option 1 and 2, but would also provide for adding two more pipes, so chilled and hot water could be run at the same time. This would require new piping throughout the building and would damage rooms that have ceiling tile. As a result, this option also looks at adding new energy efficient lighting and ceiling tile where necessary.

The board is still reviewing options at this point and will continue to examine this issue in the future. Because of the age and condition of the 1969 boiler, this appears to be the most immediate need. If the boiler would happen to fail and was beyond repair, a new boiler would have to be installed to heat the high school. The options outlined by the engineer make it possible for the various projects to be phased in over a period of years, so not everything would need to be completed at once. This also makes it possible to spread funding for any project over several years.
**ENO Tree Planting Day**

Last year when we began putting things in the outdoor classroom, we joined forces with ENO PLANT A TREE DAY. It is a day where people and schools all around the world plant trees to help the environment. Last year we began with our Heritage Oak tree. I felt that was fitting since I want the Outdoor Classroom to become something the students and community can be proud of, and it became part of Meade Elementary’s Heritage. This year, we once again joined thousands of schools by planting two trees in our Outdoor Classroom. We had the Kindergarten class join the 6th grade in planting two apple trees. Mrs. Wiens had asked if an apple tree could be planted since they do many activities with apples at the beginning of the year. So, we did. The Kindergarten classes broke ground for the trees and the 6th graders completed the digging and planting. My hope is that they will be able to enjoy the apples that will come from those trees as they continue in school.

~~By Carol Hewitt

**REMEMBERING WITHOUT RE-EXPERIENCING 9/11**

With every passing year, the anniversary of 9/11 becomes more muted and less painful - so it is and should be with excruciating memories.

Tragic events dot the lives of all of us – the death of a loved one, the end of a marriage, the loss of a home or business – and it’s sometimes difficult to resist the temptation to emotionally re-experience the heartache. It’s as if we must suffer all over again to prove we care.

But in the end, self-inflicted suffering is pointless and damaging. We’re entitled to live happy lives, and that requires us to let go of the grief of terrible times. That doesn’t mean we forget them.

Regarding September 11th, it’s important to pause to honor with reverence and gratitude the victims and the noble efforts of those who struggled mightily to rescue them.

We should also reflect on four lessons worth remembering:

1. Life is fragile. We’re all vulnerable. We should live each day knowing it could be our last.
2. Every single life is precious. We should never diminish or demean the profound tragedy of lost lives by thinking of casualties in impersonal or statistical terms.
3. The capacity we saw to care about and cry for strangers proves we’re not like the cold-hearted bigots who caused this calamity. We must never allow our anger or fear to turn us in that direction.
4. While we should defend ourselves, the fundamental principles that define our nation require us to be more humane, more just, and more forgiving than those who want to harm us.

Here at the Meade Jr. High and Elementary building, we strive to teach all of our students that we need to treat all people with honor and respect. It doesn’t matter if we are competing against them or if they are our family members, all people deserve to be treated well.

Dale Deighton
AD/Counselor Meade JR High

**5th Grade Happenings**

By MaKenna Rudzik & Taitym Knott

Fifth grade has started out GREAT!! Our school has adopted a new Math book called “Saxon” math. We have been working very hard to learn the Math skills that will prepare us for the State Assessments! In Language Arts, we have been studying “Tall Tales!” We read about Pecos Bill, Johnny Appleseed, John Henry, Paul Bunyan, Davy Crockett and Slue-Foot Sue. We did small-group plays to introduce each “Tall Tale” character! In Science, our class has been learning about plant and animal cells. We made diagrams of both types of cells. In Social Studies, we are starting a unit about Native Americans. It’s going to be fun!

This year we have 5th grade Band! It’s good also! Most everyone went to summer band, so we all know about our instruments! 5th Grade has been very exciting so far!! We can’t wait to see what the rest of the year holds!! Hopefully, lots of learning and fun!!
**Student Corner**

**By Marina Reimer - 6th**

Sixth graders are starting out with a great year! We are learning lots of new things in our classes, and also in music and art. In science, we have started a unit on plants. There are many different experiments to try! For art, we are doing conservation bookmarks on SOIL. They have to do with “soil power!” They are very neat and creative.

In social studies, we are learning about Ancient Egypt. It is very interesting. In music, in about a month, we will start going to the nursing home and singing songs we’ve learned for them. Sixth grade is very fun and interesting, and there are lots of new things to learn. It will be a great year!!

**1st & 5th Grade "Buddies"**

By Cassandra Brown

In 5th Grade, we have a really fun activity called “1st Grade Buddies”. We get to go to the first graders’ class or they can come to our classroom and we get to do puzzles, learning games, draw, read books and watch movies together. We also do “Character Counts” lessons with our buddies! We made Responsibility posters with our buddies since our Character Trait this month is RESPONSIBILITY! It is really fun and the first graders are really sweet!

If we get our name on the board for not bringing homework back, or for bad behavior, we cannot go to first grade buddies that week. I don’t want to disappoint my buddy, so I try as hard as I can not to get my name on the board. Well, that’s what 1st grade buddies is all about!!!!!!!!

---

**Meade Students Beat State Average on ACT**

Meade students continue to perform exceptionally well on the ACT assessment compared to other Kansas students. This national assessment is taken by students who plan on attending a post high school institution of higher learning. This assessment or the SAT is required by most colleges for admission. Preparing students for college is an important part of the Meade USD #226 mission and the table below shows how well Meade students have done over the last five years. Credit goes to the Meade staff, parents, and the students for making such tremendous progress. Meade students have shown an increase in their composite ACT score every year for the past five years in a row.

**Second Annual Coat Drive**

PTO and Kayettes join forces once again!

Last year the Meade PTO and MHS Kayettes teamed together to collect coats, jackets, and sweaters for those in need during the cold winter months. They were able to gather approximately 75 items for distribution. Again this year Wardrobe Cleaners of Dodge City has graciously offered to donate their time and talents to clean all the coats the two organizations collect.

The collection date has been set for Friday, October 9th, during the MHS Homecoming football game. There will be collection boxes located at each gate entrance into the field. If you are unable to attend the game, but would like to donate your coats, sweaters, or jackets please take them to either the Meade High School or Meade Elementary/Junior High office.

For more information, please contact Senior Kayette, Tiffany Mittlieder at the high school (873.2891) or Brenda Reimer, PTO Chair, at MES/MJH (873.2671).

The Kayettes and PTO both appreciate your continued support!

---

Once again Kayettes will be having the "Blue Jeans Friday" activity to support breast cancer awareness.

Collections will take place in the high school 6th hour every Friday by Ashton Ross and a helper!

Fees are: $.50 - Blue Jeans with a pink shirt, jacket, top or $1.00 - Blue Jeans

We encourage everyone in the high school building to take part and help “find the cure”!

If you are a business in the Meade community and would like to join our breast cancer awareness efforts, please contact Debbie Thomas at the high school at 873.2981.
